SureBuilt Manufacturing offers complete forming, shoring and scaffolding equipment renovation. We handle different types and brands of equipment, including steel-ply, crane set, clamp forms, shoring and scaffolding.

We can repair your damaged concrete forms at a fraction of the cost of new. Broken side rails, crossmembers, or braces can be fixed, restoring the concrete form to excellent condition.

Our form renovation department is fully equipped to recondition your forms to original specifications. Our services includes:

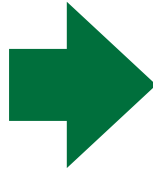

- Stripping
- Wheelabrating
- Straightening
- Welding
- Painting (Wet Paint/Powder Coating)
- New Plywood (HDO/Birch)

Powder Coating

Before

After Renovation

**Notes:**

Birch plywood installed in forms up to 8', HDO plywood only in 9' & 10' forms. Renovation completion takes 3-4 weeks.

Standard colors to choose from: Post Office Blue, Bellwood Red, Channel Green, Evergreen. Other colors available upon request.

Replacement of crossmembers, braces, and welding are an additional cost.
